

X-ray Angiography System information notice

Last updated: 22/08/2025

The following information is provided for users who conclude contracts for purchase, rent or lease the following X-ray Angiography System provided by Shimadzu Corporation ("Shimadzu", hereinafter also referred to as "the Company", "we" or "us").

X-ray Angiography System list

TRINIAS	
---------	--

I. Definitions

The following definitions apply throughout this document:

- **'Connected product'** is an item that can generate, obtain, or collect data about its use, performance, or environment and that can communicate this data via a cable-based or wireless connection except for an item whose primary function is the storing, processing, or transmission of data on behalf of any party other than the user.
 - **[X-ray Angiography System]** sold, rented, or leased by [Shimadzu] or its business partners which are provided by Shimadzu.
- **'Related service'** is a digital service that can be linked to the operation of a connected product and that affects the functionality of this connected product, for instance by transmitting data or commands to it.
 - [Site-View BB] Remote maintenance service
- **'User'** is a natural or legal person that owns a connected product or to whom temporary rights to use that connected product have been contractually transferred, or that receives a related service.
 - This will usually be the person or company who bought, rented, or leased the connected product from Shimadzu or one its business partners.
- **'Data holder'** means a natural or legal person that has certain rights or obligations, in particular in accordance with the EU Data Act, to use and make certain data available, which can include product data and related service data.
 - For details on the identity of data holder see below (Identity of the prospective data holder).
- **'Product data'** means certain data obtained, generated, or collected by a connected product which relates to its performance, use or environment and is designed to be retrievable by a user, data holder or other third party.

- For details on relevant product data see below.
- **‘Related service data’** means certain data representing user action, inaction and events related to the connected product during the provision of a related service.
 - For details on relevant related service data see below.
- **‘Readily available data’** means product data and related service data that a data holder lawfully obtains or can lawfully obtain from the connected product or related service, without disproportionate effort going beyond a simple operation.

II. Information about connected products.

Type of product data: Equipment Operation Information	
<u>Matter</u>	<u>Details</u>
1. More detailed types of product data which the connected product is capable of generating	Operation Log, Activity History, Exposure Log, Error Log
2. Format of product data which the connected product is capable of generating	Text
3. Estimated volume of product data which the connected product is capable of generating	Approximately 1 GByte / Month
4. Is the connected product capable of generating data continuously and in real-time?	No
5. Is the connected product capable of storing data on-device or on a remote server?	Stored on-device Stored on a remote server (If connected)
6. Intended duration of retention of the data	Approximately several months
7. How may users access, retrieve or erase the data	Please contact your local Shimadzu representative.

III. Information on the related services

<u>Matter</u>	<u>Details</u>
1. Nature and estimated volume of product data that the prospective data holder is expected to obtain	The same types and estimated volumes of product data as described in II. above.
2. Collection frequency of product data that	Data can be retrieved periodically or as

the prospective data holder is expected to obtain	needed by the data holder.
3. Arrangements for the user to access or retrieve such product data, including the prospective data holder's data storage arrangements and the duration of retention	<p>The data of the remote maintenance server is a copy of the data of the device, therefore the user can get the same data from the device.</p> <p>The details are defined by the remote maintenance contract.</p>
4. Nature of related service data to be generated	N/A
5. Estimated volume of related service data to be generated	N/A
6. Arrangements for the user to access or retrieve such related service data, including the prospective data holder's data storage arrangements and the duration of retention	N/A
7. Does the prospective data holder expect to use readily available data itself and the purposes for which those data are to be used?	<p>Shimadzu expects to use readily available data for the following purposes:</p> <ol style="list-style-type: none"> 1) performing an agreement with the user or activities related to such agreement; 2) providing support, warranty, guarantee or similar activities or assessing the user's, the Data Holder's or a third party's claims related to the Products or Related Services; 3) monitoring and maintaining the functioning, safety and security of the Products or Related Services and ensuring quality control; 4) maintaining and improving the functioning of, or manufacturing, supplying, or offering any product or related service offered by the Data Holder; 5) developing new products or services by the Data Holder, by third parties acting on behalf of the Data Holder, or in

	<p>collaboration with other parties; and</p> <p>6) aggregating these Data with other data or creating derived data, for any lawful purpose, including with the aim of selling or otherwise making available such aggregated or derived data to third parties.</p>
<p>8. Does the prospective data holder intend to allow one or more third parties to use the data for purposes agreed upon with the user?</p>	<p>Shimadzu intends to allow third parties to use the data for the following purposes:</p> <ol style="list-style-type: none"> 1) assisting the Data Holder in achieving the purposes described above; 2) achieving, in collaboration with the Data Holder, the purposes described above; 3) performing agreements with its customers or activities related to such agreement; 4) providing support, warranty, guarantee or similar activities or assessing claims related to the Data by a customer, the Data Holder or any other third party; 5) monitoring and maintaining the functioning, safety and security of its products or services and ensuring quality control; 6) maintaining and improving the functioning of, or manufacturing, supplying, or offering any product or related service offered by the Data Holder;
<p>9. Identity of the prospective data holder and other data processing parties</p>	<p>Shimadzu Corporation</p> <p>Nishinokyo Kuwabara-cho, Nakagyo-ku, Kyoto 604-8511, Japan</p>
<p>10. The means of communication which make it possible to contact the prospective data holder quickly and communicate with that data holder efficiently</p>	<p>Please contact your local Shimadzu representative.</p>

11. How can users request that data is shared with a third party and, where applicable, end the data sharing?	Please contact your local Shimadzu representative.
12. The user's right to lodge a complaint alleging an infringement of any of the provisions of Chapter II of the Data Act with the competent authority	The users have the right to lodge a complaint if an infringement of any of the provisions of Chapter II of the Data Act with any competent authorities in the EU.
13.
